## MINE SAFETY SLIPS, TRIPS and FALLS

- ☐ Practice good housekeeping. Make it part of your daily duties to do routine clean-ups during the shift.
- Wear footwear with good soles with traction. Routinely clean soles to help maintain non-slip traction.
- ☐ Maintain properly lighted, compact and level walking surfaces with proper drainage to limit puddles of water and muddy areas.
- Maintain walking surfaces free of large rocks, "clumps" of dirt, oil, grease and similar hazards.
- ☐ Hoses, electrical cords, hand tools and other similar items should be picked up when not in use and promptly stored.
- ☐ Always be alert and aware of your surroundings.
- Never run or take short cuts. Walk at a normal pace and travel on designated walking areas or pathways.
- ☐ Hose and electrical cords in use should be positioned out of normal walking paths, if possible, and maintained to limit trip hazard.
- □ Repair or provide drip pans for equipment leaks such as coolant, oil, hydraulic fluid, etc.
- ☐ Maintain equipment walking surfaces free of mud or dirt accumulation.

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
